### WORK EXPERIENCE

#### Frontend Developer intern - Outreachy

Dec 2022-March 2023

- Worked with multiple stakeholders including a UI/UX designer, and developers from Red Hat and Boston Children's Hospital project on the ChRIS project to add keyboard shortcuts which improved accessibility.
- Reworked the responsiveness and 3 + existing features including the create analysis wizard, file browser, and feed output browser using React, Patternfly, and Redux which enabled a faster user experience.

#### Scrum Master - Creators

Aug 2022- Nov 2022

- Organized and coordinated 2+ daily Agile standup meetings and bi-weekly sprint retrospectives to highlight issues and monitor progress.
- Performed unit testing of 10+ features before merging using Docker to ensure successful execution.

#### Teaching Assistant - African Leadership University (ALU)

Oct 2021- May 2022

- Taught 20+ students programming basics in Java and JavaScript allowing 3 facilitators to complete their lessons plan on time.
- Mentored 10+ students by giving them advice, providing feedback on assignments and sharing resources to help them reach their career goals by 90%.

#### Frontend Developer intern - ALX

June 2021- Sept 2021

- Developed an FAQ page for the young leader (YL) platform using Tailwind CSS, Vue, and Zendesk API which boosted the YL experience.
- Rebuilt 2 YL platform pages' responsivity using Tailwind CSS which enhanced their accessibility.
- Collaborated with the product manager on 2+ features to understand the technical requirements.

### VOLUNTEER EXPERIENCE

#### Google WTM Kigali Ambassador

Elevate women techies by organising events, technical writing, and sharing resources.

#### AWS User Group Kigali, Lead

Collaborate with other organizers to host/organize events to raise awareness of AWS services

#### Front-End Developer

Contributing to the ChRIS open source project by Boston Children's hospital using React, Redux, JavaScript, etc

### PERSONAL PROJECTS

#### Title: She Mentors Africa

A mentoring web application to connect young African women in tech to mentors. It is built using React, JavaScript, AWS Amplify, ExpressJs, and DynamoDb.

#### Title: Weather Center App

A web application to provide a daily/hourly forecast and provide recommendations. It is built using React, JavaScript, and open weather API
